

What is a Targeted Individual ?

A Targeted individual (T.I.) is someone against whom an organized, illegal, on-going system of harassment and abuse is perpetrated. It can lead to insanity and death, which is the desired outcome by the leaders of such harassment.

Methods of harassment

It starts with an organized character assassination of the T.I. wherein vicious lies are spread concerning a target's behavior, past and present. It is done , to isolate, to impoverish, and to reason why criminal acts against the T.I. should be done..This is called criminal gang stalking and disinformation/ black propaganda tactics.

Next .. people are perpetrated to harass, stalk, and gaslight the T.I. in order to drive the T.I. into insanity, which is the primary reason for the entire project Neighbors, communities and even friends and relatives may be convinced to take part on the premise that the T.I. must be driven out of town ...

Even if the T.I.s leave town, the harassment and abuse follows them, so there's no impetus for T.I. s to leave. When this doesn't work, more drastic measures are taken that include , invasion of the T.I.s include, invasion of the T.I s home, destruction of property , Biological attacks and electronic harassment..Biological assaults cause infections of all sorts and may cause serious health problems , sooner or later ..

The community has been convinced that the T.I. is the source of all of their problems and must go.

This program of harassment goes on until the T.I. is either insane, institutionalized, and totally broken in every way..

"You've vandalized my heart, raped my soul, torched my conscience.. You forced me into a corner and gave me no option" such becomes the condition of the T.I. in an outraged condition..

Criminal Gang Stalking

**STOP GANG STALKING - ANOTHER TERRIBLE FORM OF ASSAULT AND DEGRADATION
- URGENT PLEASE SEND THIS AROUND EVERYWHERE**

IN THE UNITED STATES AND COUNTRIES ALL OVER THE WORLD. PEOPLE ARE BEING GANG STALKED (STALKING BY ORGANIZED GANGS OF PEOPLE) AND COVERTLY TARGETED WITH ELECTRONIC AND SURVEILLANCE WEAPONS:-

What is it?

Gang Stalking is a well-organized, occult form of covert harassment used against an individual. **It is done by large groups of people who systematically & repeatedly harass individuals. The people who participate are usually under the impression that they need to keep an eye on a targeted person or drive them out of town for wrongdoings. It often encompasses the use of Directed Energy Weapons (DEW) such as Microwave harassment.** This can be a for-hire organized harassment service. These groups operate throughout the world – especially North America & Europe, & exhibit cult-like characteristics. They usually have local numbers ranging in the hundreds. This has also been called Cause Stalking, Gang Stalking, Community-based Harassment, Organized Vigilante Stalking, Vengeance Stalking, Terrorist Stalking, Revenge Stalking, Covert Action, State-Sponsored Harassment, Microwave Harassment, Microwave Mind-Control.

Gang Vigilante Stalking is an occult form of terrorism/mind-control used against an individual, in a malicious attempt to reduce the quality of a person's life so they will have a nervous breakdown, become incarcerated/institutionalized, experience constant mental, emotional or physical pain, become homeless, &/or commit suicide. It is done using well-orchestrated accusations, lies, rumors, bogus investigations, setups, framings, intimidation, overt or covert threats, vandalism, thefts, sabotage, torture, humiliation, emotional terror, DEWs, & general harassment. It is a ganging up by members of the community who follow an organizer & participate in a systematic & ritualistic persecution of an individual. Organized Stalking is a destructive criminal program built on deception that exists to serve the intentions of a few who are aware of its true agenda.

Gang Stalking (also called "group stalking" "organised stalking") is a total assault paradigm. It is carried out by criminal secret societies.

The crimes committed through gang stalking an individual are covertly done, hence little in evidence is left behind of the crime, and the target is left with little in the way of recourses to defend himself or herself. Isolation, through disrupting socio-familial ties in an intense slander campaign, is usually achieved once the actual stalking begins. A pervasive slandering campaign takes place, painting the target as an unstable individual, child molester, a person with hidden dark secrets, or a person prone to psychopathic behavior. The criminals planning a gang stalking endeavor study the target long before the stalking begins. Psychological profiling is done, and this is to assist in the overall campaign that includes intense psychological harassments and demoralizations. Tactics used go well beyond fear, demoralization and psychological harassment. The tactics used have been the protocol in campaigns against common people implemented by the KGB in Soviet Russia, Nazis of Nazi Germany, and the KKK in the early to middle of last century in America.. The accumulation of all the tactics and events in this dangerously hurtful organized crime against an innocent human being can led to trauma and will emotionally bankrupt the targeted individual, and may lead to death ,as suicide is often induced through the assaults. The perpetrators of gang stalking are serious criminals who do great damage, and the acts done are very serious crimes by any measure.

Gang stalking is a highly criminal campaign, one directed at a target individual, and one that aims to destroy an innocent persons life through covert harassments, malicious slander and carefully crafted and executed psychological assaults.

Gang stalking deprives the targeted individual of their basic constitutional rights and destroys their freedom, setting a stage for the destruction of a person, socially, mental and physical, through a ceaseless assault that pervades all areas of a persons life.

What drives such campaigns may be revenge for whistle blowing, or for highly critical individuals, as outspoken people have become targets. Other reasons why a person may become a target individual for stalking: ex-spouse revenge, criminal hate campaigns, politics, racism.

Gang stalking may be part of a larger phenomena that may have loose threads that extent into a number of differing entities, such as government, military, and large corporations, though it is certain that organized crime is one of gang-stalking's primary sources, or origins.

The **goals of gang stalking** are many. To cause the target to appear unstable mentally is one, and this is achieved through a carefully detailed assault using advanced psychological harassment techniques, and a variety of other tactics that are the usual protocol for gang stalking, such as street theater, mobbing, pervasive petty disrespecting.

Targets experience the following:

1. A total invasion of privacy
2. Pervasive and horrific slander
3. Isolation through alienation that is caused by the slander
4. Destruction of, or alienation from all things that the target holds dear.

Ground Work

A discrediting campaign is initiated long before the target is actually stalked. They, the criminal perpetrators, twist and fabricate reality through such a campaign, displaying lies that paint the target as a child molester, a person with hidden dark secrets, an highly unstable individual who may be a threat to society, a prostitute, or a longtime drug user, etc.

The slandering or discrediting campaign sets the stage for the target to become alienated in just about every social-familial- work environment, once the actual stalking begins. This slandering campaign is instrumental in eliminating all resource and avenue of defense for the target, before the actual stalking begins.

This stage is one that sees people close to the target, family, friends, neighbors, and co-workers recruited by the perpetrator criminals, who will pose as law enforcement officials, private investigators, or a groups of concerned citizens.

The **gang stalking is aimed at achieving** one or all of the follow:

1. induced suicide
2. financial devastation
3. homelessness
4. institutionalization in psyche wards

Once actual stalking begins:

The target will endure a vast array of tactics: gas lighting, street theater, drugging, gassings, scent harassment, mobbing, subtle but frequent destruction of property, killing of pets

Psychological profiling will be done so as to initiate an intense psychological harassment assault. Staged happenings and planned or directed conversations will take place around the target in public or places of work, and serves not only to undermine the targets psychology, but also may be used to cause the target to thinking that he or she is under investigation for horrific crimes.

Stalkers will have studied the target to such a level that they know and can predict the persons behavior. Again, often the target will think that they are being investigated for crimes that would be absurd for the target to have actually committed. Not knowing what actually is happening, the target is isolated and lives through a never ending living nightmare.

Once the target finds out that they are a target individual for gang stalking, or multi stalking, they may have some relief, but from what I have read, the stalking simply changes dimensions a bit, and continues.

Identifying the exact people who initiated gang stalking campaigns is difficult, or near impossible, and this makes it very difficult for people researching this phenomena to discover, in certainty, the roots and genealogy of the crime. Investigation of a gang stalking crime would require a great deal of resources, and intensity similar to murder investigations.

Why are you being targeted??

Many survivors of these attacks who put their stories on the internet do not know exactly why they became a target, they can only guess. Most of the time they conclude the reason is personal, i.e. the target runs into one or more psychopaths connected to the secret services network. Psychopaths don't like people who are strong, intelligent, outspoken, they don't like people who know too much, they don't like normal people anyway, they are afraid of them.

The secret services network in your country wants to control everything. They need people to spy on other people, to stalk, to murder. They setup persons and point them terrorist, pedophile, alcoholic, dangerous, etc. and then recruit persons around the target. They do this all the time, if they do not do this they cannot exist because their system is totally corrupted. No one will talk because every person in the system is compromised in one way or another. They prefer to murder innocent people, to destroy the lives of innocent children the rest of their lives instead of going to trial for the crimes they have committed and be jailed for life.

You have been put on a list and after a selection process you were chosen to be eliminated, read murdered. I believe selection is a simple process. They check your life and assign points. If you are a friendly person, you get extra points because you probably will not shoot back. If you are living by yourself you get extra points because nobody is there to notice the things they do. If your age is 40+ you get extra points, it is not so special if a person this age dies or collapses suddenly. If you have some money you get extra points, they will make some of it disappear when you collapse. These psychopaths are just playing gods while they are no more than pieces of shits. They ultimately abuse the powers that have been given to them.

Gang Stalking and D.E.W. Crime

(From <http://www.gangstalkingworld.com/> and <http://www.peoplezapper.com/>)

Gang Stalking is experienced by the Targeted Individual as psychological attack, that is capable of immobilizing and destroying them over time. The covert methods used to harass, persecute, and falsely defame the targets often leave no evidence to incriminate the civilian spies. This is done with Hi-tech weapons (DEW) and other privacy violation devices.

This is a systemic form of control, which seeks to destroy every aspect of a Targeted Individual's life. This process is covertly designed to destroy the target over time, leaving them with no form of support.

This amounts to draconian & criminal violation of privacy through, criminal privacy violating devices (that are an integrated part of weaponry of Directed Energy Weapon's Crime) and associated with tremendous torture through AUDIO-VISUAL SATELLITES, BRAIN WAVE ANALYSERS, INTERACTIVE TRANSECTOR DEVICE and Advanced Neurophone Technology, (for Voice-To-Skull Torture).

This is the most sophisticated form of "psychological murder and gang-rape" one can think of, and is used to also threaten to criminally destroy the brain and nerves intentionally & completely to a vegetative state..

To begin with, this was draconian violation of privacy, life and liberty,& in fact, in a nutshell, in one fell swoop, it criminally violates all human rights that a human being is entitled to.

- **PEOPLE GANG STALKING OTHER PEOPLE, I.E. STALKING A PERSON WHILE BEING PART OF A GROUP, ARE MURDERERS.**
- **PEOPLE PUSHING THE BUTTONS OF ELECTRONIC WEAPONS ARE MURDERERS.**
- **PEOPLE INITIATING AND FACILITATING THESE CRIMES ARE MURDERERS.**
- **PEOPLE RESPONSIBLE CAN BE CONSIDERED MASS MURDERERS.**

Gang stalking, often performed in conjunction with electronic harassment (burn/cook/destroy through walls, (sub-vocal mind-reading) is most of the time organized, performed, outsourced by national (or local) secret services. Many people that are asked to co-operate, e.g.:

- to walk or drive by the victim's house at certain moments
- to go outside when the victim leaves or enters its home
- to ask the victim a certain question

do not want to believe that they are part of a sinister plan to eliminate the victim. **They are told lies** and start co-operating thinking it is a good thing to do. Then after some time they realize that what they are doing is wrong, that they are committing a crime. Still, many continue to co-operate, but now because they are afraid that everybody will know that they are criminals, and that they may be treated the way the victim is treated.

Why gang stalkers and people cookers are murderers?

The victim is a person placed on a list to be eliminated. Once the process starts there is no way back. It is important to emphasize that running away, **moving to another location does not help as the victim is targeted everywhere he goes.** This process can be described by two simple rules:

- THE VICTIM IS STALKED/HARRESSED WHATEVER DOING
- THE VICTIM IS STALKED/HARRESSED EVERYWHERE HE/SHE GOES

The aim is to drive the victim out-of-his-mind, insane, so the victim will act as follows:

- THE VICTIM COMMITS SUICIDE
- THE VICTIM BECOMES A PSYCHIATRIC PATIENT
- THE VICTIM COMMITS A CRIME
- THE VICTIM COLLAPSES/DIES OF CONTINUOUS SUFFERING

In other words:

THE AIM IS THE PHYSICAL OR MENTAL DEATH OF THE VICTIM

To be complete there are more ways a victim can get eliminated:

- constructed car accidents
- body damage by electronic weapons, (high power microwave, ultrasonic, ELF)
- long term electronic harassment (**cancer**)
Electromagnetic irradiation destroys DNA. Body cells are renewed once in a while, cells with modified DNA are called cancer.

The aim is the death of the victim making the ones causing these murderers. What's more, this is in fact premeditated murder.

Persons to be eliminated are not criminals

Many victims of gang stalking and/or electronic harassment have no clue why they are selected to be eliminated. Most of the time these persons are ordinary hard-working people, and most of the time they are friendly persons. Survivors report various reasons why they may be on this list. They know too much, their ex-partner is related to secret services/military, they have money, they have a company with outstanding products, they are people with special skills, they say something not nice to someone connected to the sick network, they have a house at a strategic location, they see things in the company they are working they should not see, etc.

The elimination list exists for three main reasons

- to add new agents to the secret services network
Every year secret service personnel and agents die in action or by natural cause. They are replaced by the principle: create enemy, assembly allies.
- to steal
Companies are ruined so their own companies get the business, money is stolen so they can 'pay' the gang stalkers and people cookers, etc.
- to perform experiments on people
By first testing it on ordinary people, they can use proven methods and technology on well-known persons like politicians, activists, persons in jail, top athletes & top sports people and teams, etc.

Gang stalkers and people cookers torture people to death

Being eliminated by gang stalking and/or harassment with electronic weapons is truly horrible. The stalking or cooking/burning does not stop until the aim is reached, being the target committing suicide, collapsing into a psychiatric patient, committing a crime out of despair. The longer it takes the more horrible it gets, e.g. intensities by which targets are cooked with electronic weapons become insane and really **cook a person like a microwave oven cooks meat**. And what to think of **making a target burp or fart e.g. every time a car passes** his window, the targets **children being cooked** and/or burned, **the target's mind is read (sub-vocal) and reacted to** in a second. This reacting including bursting (mostly) microwaves is not done once or twice a day, but 24/7 once or twice every five minutes or even several times a minute. This is all horrible torture, and no more than **torturing a person to death**.

Summary: gang stalkers and people cooks are murderers

Gang stalkers and people cooks and the ones facilitating and responsible belong to the sickest species on this planet. They torture, murder, steal, and profit, stuff themselves from the (blood) money stolen from the people they murder. They are just parasites that should not walk around but belong in prison for the rest of their lives.

ELECTRONIC WEAPONS (DIRECTED ENERGY WEAPONS):

Probably the most horrible consequence of these weapons based on radio waves is that you can NOT protect yourself, your children, your loved ones anymore. You can no longer say: stay in this room, you are safe here. Attackers simply look and cook/burn through walls, with intensities that can be deadly. Police cannot protect you, security services cannot protect you. That is why these weapons must be banned, not tomorrow but NOW

These invisible electronic weapons based on radio waves can be used to:

- Incapacitate
- Torture
- Murder

Incapacitate example

Induce diarrhea, headache, sleep, red eyes, stomach pain, heating your body, pain, etc. at important moments, e.g. when you have to be in court, give a presentation, etc.

Torture example

Attackers make you burp or fart every time you walk down the stairs, every time a car passes by your window, every time you walk into another room of your home, every time you step outside.

Murder example

Attackers use very high power beams to damage your heart, to cook your body like a microwave oven cooks meat. Damage can be instantly done, but can also be done slowly, and can be deadly.

The normal people at war with the mentally ill (the murderers and psychopaths)

In fact you can say that this is turning the world upside down. The biggest psychopaths and smartest murderers teamed together to control the middle class. People who understand this, troublemakers, activists, whistleblowers, people who have something the network wants, people too smart for the network, free thinkers, are eliminated, by physical or mental murder. The number of stories of people reporting being targeted by gang stalking methods and electronic weapons, methods and weapons violating all human rights are increasing only to add to the credential & credibility of such incidence of crime that are taking place elsewhere in the world.

You can write a book about this, but the summary is:

We, the normal middle class people, are at war with the (powerful) mentally ill.
